

NYSA Clubs and Leagues,

Please see the below update from the City of Henderson. I hope everyone and their families are staying safe and healthy during these unforeseen times.

As the City of Henderson continues to monitor the COVID-19 situation, the health and safety of our residents and participants is our priority. **After the recent developments at the national and local level, we regret to inform you that all parks and recreation programming, sports leagues, tournaments and special event permits at City of Henderson facilities have been cancelled through the end of May.**

We are aware of the impact this will have on enrolled participants in your programs; however, we believe this is the best practice to ensure the health of Henderson's residents and do our part to prevent the spread of COVID-19. Previously allocated June through July allocations are still confirmed at this time.

Best,

Kelsey Tesoro
