

Hello,

The State of Nevada has released a mandatory directive (link below) to wear face coverings starting Friday, June 26th. This directive specified exemptions for those who are engaged in outdoor recreation activities as long as you are able to maintain 6 feet of social distancing. When the guidelines of the NYSA Return to Play Phase I reopening are followed, the players should be in compliance with the mandatory directive. In other words, players following Phase 1 guidelines will not need to wear face coverings during individual training. As before, coaches, spectators and players on the sidelines should be wearing masks. The rule of thumb for players should be the wearing of masks at all times other than when engaged in training activities.

Please see the [Phase 1 Guideline](#) on our website for the specifics.
